

OpenMFM

An Open-Source Digital Platform for Maternal-Fetal Medicine Education and Clinical Decision Support

PROBLEM

MFM education and counseling often rely on proprietary tools, siloed institutional materials, and unvetted internet content.

90

evidence-based presentations

30+

MFM conditions and content domains

OBJECTIVE

To describe OpenMFM.org, a physician-developed, open-source platform providing guideline-aligned education and interactive clinical decision support.
